Calendar is working, please ask Steffen if you want to administrate it. It's powerful, but there is a learning curve. Need to find administrator.

Parrot is not working. The services that used to autotranslate the articles are not online any more. New services could not be found. The only option left at the moment is Yahoo pipes but Steffen has not been able to make it work so far. It should still be possible to make it work and Steffen hasn't given up yet. Not all languages might be available.

Greg: Commercial Options Available?

Travis: Google / Bing have free paid translations

Current system is just a simple RSS aggregator, all news would need to come in through feeds or we need to develop a new system.

Will post to the PPI Tech Team list to find an administrator

I tried this last night and I don't know why it didn't work. I followed the directions and sprayed myself with the tea in a spray bottle 3 different times and it did not work. I used Twinings Black Tea. I am so disappointed because I so wanted this to work. I spend \$100 a month on spray tans and would like to be able to use the tea instead. Do you have any ideas why this did not work? I took a shower, exfoliated and was completely dry when I sprayed. Does the tea have to be cool when you spray? When I sprayed it was still kind of hot.
