Description			
In order to increase the visibility of the actions of the boards, and enable to create synergies, facilitate contributions and empower people, a 2 years action plan is to be drafted. There are 3 phases to that plan: • short term - within 6 months • mid term - 12 to 18 months • long term - 18 to 24 months Here is a preliminary outline of the action plan: 1. Short term: 1. The setup of a functioning PPI in Geneva 2. Improve communication and media visibility 3. Raise the empowerment level and support initiatives 4. Prepare a clear project governance framework 5. Support the ECOSOC membership application process 6. Retool the General Assembly to enable all participants to be treated equally, no more distinction between remote and in situ delegates. 7. Gain an oversight of all current global initiatives, which the PPI is involved or can provide support. 2. Mid term: 1. Plan an online GA to test the outcome of the retooling initiative 2. Define a set of strategic projects around the following areas: Peace, Human Rights & Democracy, and Economy, including immaterial rights (patents & copyrights), Culture 3. Conduct Fund raising operations for PPI, its activities, and projets 4. Enable the setup of physical project office, with permanent and project staff to fully support the selected initiatives 3. Long term 1. Setup the physical headquarters of PPI in Geneva 2. Launch the projects with their full fundings and staffing The intent of the chairman, as stated in his candidacy, is to make the PPI a operative organisation, with a clear vision, a strategy and means to execute and fulfill the charter upon which it was created, while delivering significant contribution to its members, the civil society and mankind.
